Banquet of New York's Chamber of
Commerce.
[ASSOCIATED PRESS NIGHT REPORT.]
NEW YORK, Nov. 15.—The one hun-
dred and thirtieth banquet of the New
York Chamber of Commerce was held
at Delmonico's tonight, and, in point
of magnificence, exceeded the previous
efforts of the chamber. Three hun-
dred and thirty covers were laid, and
every place was occupied. Among the
guests of honor were H. Hon. Fred
Herschell, Attorney-General Griggs,

QUIT PRO QUO?

BUT SHE CAN'T "SEE" IT.

That Syndicate Scheme Gives

If Individuals Can Pungle the
United States Should.

Such is the Argument Which
May Be Urged Today.

PRESIDENT OPPOSED TO DELAY.

Administration Officials Hold the
Opinion a Treaty Will Be Signed.
Cabinet Meeting Ends With
Some Assurance.

[BY DIRECT WIRE TO THE TIMES.]
WASHINGTON (D. C.) Nov. 15.—
[Exclusive Dispatch.] Yesterday, when
it became known in Washington that
the Spanish Peace Commission at
Paris had asked additional time, and
that the session of the commission had
been postponed to Wednesday, there
was fear in official circles here that
the negotiations might be broken off. This
was the first time that such fear had
been felt here, but it disappeared en-
tirely today. After the Cabinet meeting
yesterday all the members of the Cabinet
expressed the opinion that at tomorrow's
session of the commission in Paris,
Spain will agree to surrender the Philip-
pines, leaving only the question of
indemnity to be paid by the United
States to be discussed.

When came the assurance that this
will happen tomorrow, The Times' cor-
respondent has no authority to say, but
the assurance evidently came from
Judge Day in Paris, previous to the
Cabinet meeting at the White House
this morning. With the relinquishment
of the Spanish sovereignty over the
Philippines, there will be little haste
over concluding negotiations, and the
Spaniards probably will talk considerably
in discussing the indemnity ques-
tion, only to yield in the end and ac-
cept whatever the Americans deem it
advisable to pay.

If the foregoing view of the outcome
of tomorrow's session of the Peace
Commission in Paris is incorrect, then
the administration must have been
misinformed, for the administration
certainly has assurances of this sort
today.

THE SPANISH SIDE.
[ASSOCIATED PRESS NIGHT REPORT.]
MADRID, Nov. 15.—According to
semi-official statements here the Span-
ish Peace Commissioners will maintain
their present attitude in regard to the
Philippines, and will certainly not ac-
cept the conditions of the United
States. Further, if the discussion does
not return to the limits of the pro-
tocol, as viewed by the Spaniards, the
Spanish commissioners have decided,
in spite of contrary reports, not to sign
a treaty of peace.

It is also learned from the same
source that complete accord prevails
between the Spanish government and
its peace commissioners.

WILL NOT BROOK.
The President Insists on Negotia-
tions Going Ahead.

[ASSOCIATED PRESS DAY REPORT.]
WASHINGTON, Nov. 15.—Atty.-Gen.
Griggs and Secretary Bliss were not
present at today's Cabinet meeting,
having left with Mr. Dawes, Comptrol-
ler of the Currency, to attend the
banquet tonight by the New York
Chamber of Commerce. The meeting
occupied less time than usual.

Administration officials do not share
the opinion expressed in some quar-
ters that the Paris Peace Commission
will fail in its efforts to agree upon a
treaty. This opinion is not based upon
any specific information received from
Paris, but rather upon the fact that,
by withdrawing from the conference,
Spain has nothing to gain and all to
lose. It is undoubtedly true that
should the Spaniards adopt this course,
they would sacrifice the indemnity this
government is now disposed to grant,
and would also precipitate trouble for
themselves all along the line.

The United States undoubtedly would
immediately take forcible possession of
the entire Philippine group, and at
once enter upon a military and naval

campaign which would end only upon
an unconditional surrender of what-
ever territory this government might
see fit to demand. It is believed that
the United States at this time would
consent to a cash payment of from \$20,
000,000 to \$25,000,000 rather than renew
the war, but the longer a final settle-
ment is delayed, the smaller will be
the indemnity. In any event the Presi-
dent is not disposed to brook unneces-
sary prolongation of the negotiations,
and it is believed has so indicated to
our peace commissioners.

**REPREHENSIBLE SYNDICATE
SCHEME.**

[ASSOCIATED PRESS DAY REPORT.]
WASHINGTON, Nov. 15.—The offi-
cials of the State Department do not
expect that tomorrow's meeting of the
Peace Commissioners in Paris will be
the last. On the other hand, it is not
expected that the Spaniards will come
in with an unconditional acceptance of
our last demand. Still, substantial
progress may be regarded as having
been achieved if the Spaniards show a
disposition to discuss in any phase the
cession of the Philippines to the United
States, even in connection with a
money indemnity. The amount of that
indemnity, after all, it is believed, will
be the principal point of difference be-
tween the two sides.

Inquiry has been made into the char-
acter of the projectors of the remark-
able syndicate scheme for the purchase
of the Philippines for the sum of \$400,
000,000. The result has been to show that
they are irresponsible parties, and it is
scarcely to be doubted that the project
has been put forward as a means of
enhancing the price which the Spaniards
may demand for the relinquish-
ment of the Philippines. In other
words, the Spaniards might claim justifi-
cation for demanding a sum as large
as \$200,000,000 if they could point to the
fact that a syndicate stood ready to
pay double that price for the islands.
However, this has not led to any modifi-
cation of the American demands as
far as can be learned, and it is prob-
able that several sessions of the joint
commission will be consumed in hag-
gling over the amount of money to be
paid over on account of the Philip-
pines.

CARLIST UPRISING.

[ASSOCIATED PRESS NIGHT REPORT.]
LONDON, Nov. 15.—The Madrid cor-
respondent of the Daily Mail says:
"A leading article in the Times will
be astonished if a formidable rising
does not occur in Spain within a month
after the peace treaty is signed. The
Carlists have abundant supplies of
money, and my informant says, only
something very big and unexpected
can prevent a rising."
"This appears to agree with the news
that Don Carlos has succeeded in rais-
ing an important loan in London; and
in Paris, and that wealthy Carlist
families are insuring their property
against war risks."

AWAIT A REJOINDER.

[ASSOCIATED PRESS NIGHT REPORT.]
LONDON, Nov. 15.—The Paris cor-
respondent of the Times, who denies the
assertion of La Liberté that Spain will
reply, says: "My information is that
the Spanish commissioners will pre-
pare a reply to the American mem-
orandum and await for a rejoinder. As
for the Spanish government, it has not
yet arrived at any decision."

MADE 'EM JUMP.

Rumor That America's Fleet is
About Starting for Spain.

[ASSOCIATED PRESS NIGHT REPORT.]
LONDON, Nov. 15.—[By Atlantic Cable.]
The rumors circulated here yes-
terday that the American fleet was on
the point of starting for Europe caused
great excitement in commercial circles.
The Daily Graphic says this morn-
ing: "The Spanish transatlantic fleet
has been ordered to be prepared for a
renewal of hostilities, and the forts in
the Canary Islands are being rapidly
manned."

THAT CARLIST LOAN.

[ASSOCIATED PRESS NIGHT REPORT.]
MADRID, Nov. 15.—The Imparcial
today, commenting upon the loan which
Don Carlos, the pretender to the Span-
ish throne, is said to have raised in
London, says: "Evidently the English
are abetting an outbreak of a civil
war in Spain with the object of secur-
ing additional territory at Gibraltar.
The Americans employed the same
methods to become masters of Cuba."

ASK FOR AUTONOMY.

[ASSOCIATED PRESS DAY REPORT.]
MADRID, Nov. 15.—The Catalanian
delegation, which, in conjunction with
delegations representing the other
provinces of Spain, demands the de-
centralization of the government, has
handed to the Queen Regent a mes-
sage setting forth the aspirations of
the province for demanding local au-
tonomy, the government continuing to
exercise the functions relating to spe-
cial unity and international relations.

NO RAVISH WITHOUT PAY.

[ASSOCIATED PRESS NIGHT REPORT.]
PARIS, Nov. 15.—The Spaniards de-
clare that their refusal to sign a
treaty based on any Philippine terms
thus far suggested by the United
States is irrevocable. They say that
they do not and cannot view the tak-
ing of the Philippines as anything else
than a wanton ravishment of their
possessions, unless it is accompanied
by a consideration of appreci-
able size. Therefore the turn of
events in the peace conference depends
upon the purpose or the willingness
of the Americans to extend their financial
terms.

It is almost a pure matter of money
now, if the amount be large enough to
absolve the Spanish government from
possible charges by their creditors, that
the collateral has been given away.
Persons near to Spain's heaviest cred-
itors believe that should the Americans
assume the Philippine debt or pay
Spain its face amount in cash, the
Spaniards would sign.

If they have not already done so, the

Mr. Morgan Bound to
Have a Canal.

The Alabama Senator Not to Be
Cowed by Huntington.

Will Press His Bill Despite the
Allied Railroads.

He Expects Considerable Opposition,
but Announces His Purpose to
Keep Hanging Away Until He
Gets the Measure Passed.

[BY DIRECT WIRE TO THE TIMES.]
WASHINGTON, Nov. 15.—[Exclusive
Dispatch.] Senator Morgan of Ala-
bama, chairman of the Senate Com-
mittee on the Nicaragua Canal, is
making things hum in the interests of
that great American enterprise since
his return to Washington. His most
important announcement, however, is
that he will call up the canal bill
immediately upon the assembling of
Congress and keep banging away on it
till he passes it. Anybody who knows
Senator Morgan knows he is quite
capable of doing just as he says. He
is the most persistent man in the
Senate.

Mr. Morgan said in conversation to-
day that he expected considerable op-
position from "those seven transcon-
tinental lines" that have already shown
up in opposition to the waterway.
In this supposition he is correct, for
there has been coming into the Times
Washington bureau and into every
other newspaper bureau in Washing-
ton, for some time past, literature
and newspapers containing arguments
against the canal and in favor of the
roads. Three such documents reached
the Times correspondent today, all of
them referring to the wonderful au-
thority of Joseph Nimitz's thesis against
the canal, which heretofore has been
mentioned in these dispatches.

COLLIS COLLARS WESTCHESTER.

[BY DIRECT WIRE TO THE TIMES.]
NEW YORK, Nov. 15.—[Exclusive
Dispatch.] Collis P. Huntington has
now all the water front of Westches-
ter, save that owned by the estate
of the late John Morris of lottery fame.
He has just acquired the property
of John Mitchell, deceased, consist-
ing of 100 acres, which he will add
to his own park of 300 acres. Fences
will be torn away at once, and the
Mitchell mansion will be removed. The
property has on it a particularly fine
grove of native walnut trees. Hunt-
ington's manager could not say today
whether they would be allowed to
stand or not. It is feared, however,
that part of them will have to be sac-
rificed for a contemplated driveway.

HE AVOWS HIS PURPOSE TO EX-
POSE MRS. BOTKIN.

Says She Will Not Spare Him, and
He Is Satisfied That Such Is the

Witnesses to Leave Soon for
California.

[BY DIRECT WIRE TO THE TIMES.]

WILMINGTON (Del.) Nov. 15.—
[Exclusive Dispatch.] "I will show
that female fend up without mercy,"
were the words of John P. Dunning
today, after he had led a conference
with Atty.-Gen. White, in relation to
going to San Francisco to testify
against Mrs. Cordelia Botkin. Dun-
ning stated more positively than ever
his belief that Mrs. Botkin is the cruel
poisoner of his wife and her sister,
Mrs. J. D. Dean of Dover.

Atty.-Gen. White and Dunning held
a long conference today, at the end
of which White said he would go to
San Francisco with witnesses, and will
make the fourteenth member of a
party to leave Delaware November 20.
After the conference, and before he
returned to New York tonight, Dun-
ning said: "It will be a bright, in-
teresting, and I shall be put in a bad
light, I know, but I will show that
female fend up without mercy. It is
even easier for a man to have his
past life thrown before the public in
a distant country. I might have hesi-
tated had it been here, but there, noth-
ing shall be held back. Of course,
Mrs. Botkin will not spare me, and I
am very willing that nothing shall be
spared, for I will not spare her."

State Detective McVey will start to-
day for California ahead of the party of wit-
nesses, so as to be ready with his ap-
peal to the United States Supreme
Court to bring Mrs. Botkin to Dela-
ware for trial should her lawyers se-
cure her release on a defect in the in-
dictment that she cannot be tried in
California for a murder committed in
Delaware.

TWENTY-ROUND DRAW.

"Spider" Kelly Was Clever, but Mul-
ler Was Strong.

[ASSOCIATED PRESS NIGHT REPORT.]
SAN FRANCISCO, Nov. 15.—At
Woodward's Pavilion tonight the box-
ing contests under the auspices of the
Western Athletic Club resulted in a
twenty-round draw between "Spider"
Kelly, and Fred Muller. Kelly was the
cleverer and outpointed Muller
throughout, but Muller was strong and
aggressive. He did most of the fore-
going, but was jabbed and punched about
the face and head with every rush. The
referee, Ward, declared the "spide"
draw, which was a not unfair decision.
The fight between Peter McGee and
Jim Reilly was stopped in the ninth
round by the police, McGee being al-
most alone. Reilly was given the deci-
sion by Joe Acton, the wrestler, who
acted as referee.

Kid McFadden and Fred Maynard
fought a twelve-round draw.

WILLIAMS BAY (Wis.) Jan. 15.—[Ex-
clusive Dispatch.] The much-talked-of
meteoric shower was observed this morn-
ing between midnight and daybreak,
the maximum being from 3 to 4 o'clock.
While there was good display, prom-
ising much for next year when the earth
encounters the densest part of the
swarm, it was not what was popularly
expected. The sky, which was overcast
with clouds the fore part of the night,
cleared about midnight. In a short
space of time, during which they were
visible from Yerkes Observatory,
about two hundred meteors were seen.
Many of the first magnitude, leaving
a brilliant trail of light, with blue-
ish-green tinges. Others were very
faint. All moved with great velocity.
Most of them appeared about 100 deg.
from radiant, showing the dis-
tance they passed through the atmos-
phere before becoming ignited.

The greatest display was seen in the
western sky, but toward morning

ber of any year, certain meteors will be seen, which dart with great rapidity across the sky and leave a shining train in their wake. Their paths, if traced backward, intersect in a point situated in the constellation Leo, near the center of the group of stars known as the "Sickle." For this reason these meteors are known as the "Leonids." They really strike the earth in parallel lines, and their apparent radiating from a point in space is a well-known effect of perspective.

"It has been ascertained that the Leonids, before they enter our atmosphere, are very small bodies (perhaps no larger than grains of shot), traveling in an orbit which extends far out beyond that of the remote planet Uranus. The meteors are distributed along the whole length of the orbit, and complete the circuit in thirty-three and one-fourth years. Every time the earth passes through this track, which occurs on or about November 13, some Leonid meteors are seen. The small particles are not, however, uniformly distributed along the track. At one place there is a great bunch, which is encountered by the earth every thirty-three years. At such times there is a remarkable meteoric display. The meteoric showers of 1833 and 1866 are the most brilliant on record.

"Although the main shower is not expected until 1899, particularly attention is being paid to the Leonids at present. If the great mass of the meteoric particles are not close bunched the advance guard and the stragglers may be expected to appear in inferior displays in the years preceding and following the great shower. In this way it is possible to determine the general grouping of the particles in their orbit.

"At the Lick Observatory, the meteors were carefully observed through the whole night of the 13th and 14th, with somewhat less attention on the two preceding nights. Two observers kept telescopes directed to the radiant point. Four or five meteors were seen, which conspicuous meteors appeared, and plotted their tracks on star maps prepared for the purpose. The result was that the Leonids will show up especially abundant. On the 13th, from 12 to 4 o'clock about thirty Leonids were counted, including some that were remarkably bright and beautiful.

"If the main shower appears, as expected, in 1899 (or possibly 1900) that fact taken in connection with the observations of the Leonids of 1898, the advancing end of the great Leonid group is sharply marked, and that there are few scattering particles ahead of it.

USE FOR BEETLES.

EXPERIMENTS PROVE THEM THE ENEMY OF SCALE INSECTS.

An Invaluable Discovery to the Orange-growers of California, Which Industry These Sealy Insects Threatened to Annihilate.

[BY DIRECT WIRE TO THE TIMES.] NEW YORK, Nov. 15.—[Exclusive Dispatch.] Local entomologists have been interested by the news that has come by way of Washington of the result of a shipment of beetles made by Dr. Howard, an entomologist of the United States and the Superintendent of Agriculture to the Department of Agriculture of Portugal.

The beetle question is known to science as *Novius Cardinale*. Its home is in Australia, from which country it was introduced into California several years ago by the Board of Horticulture of that State. It was hoped that it would be a prey upon the mite or futed scale that was ravaging the orange groves of California. The hope was well founded and the beetle, which is the natural enemy of the scale insect, is believed to have saved the California orange industry from annihilation.

It ate up the scale bugs with rapidity, checking the multiplication and causing an end of the pest. According to the Washington dispatch, a like result has taken place in Portugal. Dr. Howard received an appeal for aid from the Portuguese authorities in September of 1896, when the scale pest was ravaging the orange and lemon groves along the River Tagus. In October of last year, Dr. Howard secured from the State Board of Horticulture of California, about sixty specimens of Australian beetle. In adult state and some in larvae. These were packed in moss with a quantity of scale insects for food on the way, and were then transmitted to Portugal by mail. Only five of the beetles survived.

In November another colony was obtained in California and forwarded from New York by direct steamer to Lisbon, of which one male and five females survived. Beetles were noted for their fecundity, and within a few months their progeny numbered thousands. These were distributed about the city of Lisbon, when they at once set to work upon a feast of the scale bugs ready at hand. The latest advice that have reached Washington state that the beetles now number millions and are rapidly ridding the country of the pest.

KEEPING FAITH.

See Jefferson Sending His Sons to Star in His Plays.

[ASSOCIATED PRESS REPORT.] NEW YORK, Nov. 15.—Joseph Jefferson, the famous actor, has issued the following statement, which contains some interesting information:

"I am reluctantly compelled, under the advice of physicians, to seek temporary rest owing to my physical condition. In order to keep faith with the managers under whom I have contracts to produce 'Rip Van Winkle' and 'The Rivals,' I have decided to allow my sons, Thomas and William Jefferson, to proceed with 'Rip Van Winkle' and 'Bob Acres.' They have been acting practically all their lives, and I feel confident that they will give creditable presentations of these roles. I submit this to the theatergoers of America with the fullest confidence that they will give conscientious presentations of the above-named characters. My own support from the stage is only temporary.

Copyright Association's Appeal. LONDON, Nov. 15.—The Times publishes this morning a letter from the secretary of the Copyright Association, who appeals to the Anglo-American Commission at Washington to endeavor to induce the United States to repeal the manufacturing clause of the Copyright Act of 1891, which he says would be a "valuable proof of the sincerity of the good-will the United States now displays toward England."

Capt. McCalla Gives Up the Maria. Spanish Ready to Reply to America's Ultimatum—Strain in Havana Intense.

[ASSOCIATED PRESS REPORT.]

WASHINGTON, Nov. 15.—The government has renewed and strengthened its determination that the Spanish evacuation of Cuba and the American occupation shall not be deferred beyond January 1, next. This conclusion has been communicated to the Spanish government within the last few days, in answer to an urgent request that the date of evacuation be put off because of the large number of Spanish troops remaining on the island, who, it was represented, could not be moved before January 1.

Not being a subject which could be treated by the Paris commissioners, or at Havana, the request of the Spanish government was forwarded to Washington through the French embassy, which received also and forwarded by cable the refusal of this government to put off the date of assuming American control.

BLACK ASSASSINS.

Outrage Committed by Fiends in American Uniforms.

[ASSOCIATED PRESS REPORT.]

SANTIAGO DE CUBA, Nov. 15.—[By West Indian Cable.] An incident occurred last night at San Luis, about twenty-five miles north of Santiago, which caused a great deal of ill-feeling among the Cubans and considerable annoyance among the United States military officers here.

All the colored regiments are encamped in the neighborhood of San Luis. They were sent there virtually to get them out of the way, because of the difficulty experienced in managing them. The colored officers seem to have little or no control over their men, and officers and private are often seen drinking together with arms around each other's necks and behaving in other ways not calculated to inspire respect for the American troops among the Cubans. It was not expected that the colored soldiers could do much harm in the San Luis district, which was chosen on that principle.

The trouble began last night in an attempt to arrest two soldiers for abusing a Cuban woman and stealing his hog. The outrage was committed on the Normas sugar plantation. Lieut. José Ferrer, chief of Gen. Wood's regiment, in that section, a Spaniard, but a Cuban sympathizer, attempted to make the arrests. The soldiers, who belonged to the Ninth Immunes, escaped after a short fight, and killed Lieut. Ferrer, Antonio Roman, an old man; Emilio Betterman, a boy of 17, and a baby, and wounded several others. Two soldiers were killed in the affray.

When the news reached Santiago, Gen. Wood was at dinner. He immediately telegraphed to the military authorities at San Luis, where Chief Signal Officer Brady took charge of the key. For four hours dispatches were sent and received. The colored officers were expected to die. The expression among them is that all the soldiers belong to the Ninth Immunes. Lieut. Ferrer behaved most bravely, and even when lying on the ground he tried to defend himself. He was shot while outside the house and trying to persuade the crowd to disperse. It seems that the soldiers had been drinking in the town, and that a crowd of them was easily gotten together to make the attack. As night came, the popular feeling was of indignation intensified, and Gen. Wood's arrival was eagerly awaited.

At 8 o'clock he returned, reporting that, after a long investigation, he had found the culprits. The soldiers who did the shooting, and before leaving San Luis he read the colored officers a severe lecture for denying last night that their men were implicated. Eyewitnesses of the affair who arrived here during the course of the day, said the gendarmes who were expected to be executed, died. The expression among them is that all the soldiers belong to the Ninth Immunes. Lieut. Ferrer behaved most bravely, and even when lying on the ground he tried to defend himself. He was shot while outside the house and trying to persuade the crowd to disperse. It seems that the soldiers had been drinking in the town, and that a crowd of them was easily gotten together to make the attack. As night came, the popular feeling was of indignation intensified, and Gen. Wood's arrival was eagerly awaited.

CHAOS IN HAVANA. Outlook for Order. Not Improving—Awaiting Our Control.

[ASSOCIATED PRESS REPORT.]

NEW YORK, Nov. 15.—A dispatch to the Tribune from Havana says Havana is quiet since the strike of the Orden Publico was suppressed, but the situation is not improved. The population generally shows a peaceful disposition, looking upon the troubles as an army matter, but the impatience for American control is great.

Little can be learned of the feeling among the troops, though the evidence of unrest is pronounced and the resentment against Arolas for the killing of one of the Orden Publico's leaders is now admitted. That his death was caused by a blow from Arolas's machete, and not by blows struck by the other soldiers, has been widely reported. Blanco is conciliatory and hopes to handle the disaffected soldiers by persuasion, while Arolas is arbitrary, and insists on exercising his functions as military governor. He would quell the incipient mutiny with cannon, but it is not certain that one body of troops would fire on the other.

The plan has been to bring in battalions from the country who were not in association with the Orden Publico. It answers temporarily, but will not be a permanent assurance of peace. The statement is made that all the men of the Orden Publico have been disarmed, but this is doubted. Small payments to other battalions of arrears due make a palliative, but not a cure. The bankers say that \$5,000,000 of \$5,000,000 supplied by the Madrid government has been paid over, but none of it has gone to the soldiers. The troops are now camped in Havana streets more numerous than on Thursday, when the crisis came.

They are more than needed for police duty, but do not fulfill the police functions abandoned by the Orden Publico. Besides, the military insist upon the troops of the troops for sanitary reasons, as the exercise of the functions of the civil government is absolutely suspended.

Army Officers Expect Trouble With Aguinaldo.

[ASSOCIATED PRESS REPORT.]

SEATTLE (Wash.), Nov. 15.—Capt. John Barnson, commander of the United States transport Arizona, arrived here today from Manila on leave of absence.

Capt. Barnson left Manila September 24. He said the general impression among army officers was that when the Peace Commission concluded its labors with the United States, there will be serious trouble with the natives. Admiral Dewey told him that Aguinaldo was not only unreliable, but treacherous. It is said that Aguinaldo has promised his men that immediately upon the withdrawal of the Spaniards he would declare war against the United States. He says he will kill off American soldiers faster than the United States government can ship them to the islands.

Capt. Barnson stated there is a difference of opinion between the naval and military authorities as to the retention of the Philippines. The naval men strongly favor and military officers oppose it.

CUBAN-TARIFF RATES. Special Commissioner Porter Makes Some Suggestions.

[ASSOCIATED PRESS REPORT.]

WASHINGTON, Nov. 15.—The Hon. Robert P. Porter, special commissioner for the United States to Cuba and Porto Rico, presented his report to the President and Secretary of State today. The report submitted goes very fully into the financial and economic conditions of Cuba. There are some supplementary reports yet to be made.

Mr. Porter examined both in the United States and Cuba four hundred witnesses of all whose testimony is published in the appendix of the report. Mr. Porter has also submitted for the approval of the Secretary of the Treasury a complete revision of the tariff in the form of a new bill, which will be examined by the experts of the treasury department and, if approved, will be promulgated by the President and take effect at the port of Cienfuegos, December 1, that being in all probability the first important port to come into the possession of the United States.

The most pressing need of the island is a tariff. The Spanish tariff imposed by Spaniards for Spain, in the interest of the Spaniards. That seems to be the only principle in it. On any other theory it was inexplicable. In addition, full of inequalities and was not levied on any sound principle, but the heads Spain wine and Cuba loses' ideas, which prove in a nutshell the tariff. It was found that the only way was to remedy the inequalities, equalize the rates of duty, improve the administration of customs, and levy of duty on all articles of general consumption, and especially to frame a new tariff.

The tariff thus proposed and the adoption of which by the United States would mean the military forces take hold of the customs, will reduce all duties about 50 per cent. The Spaniards rates, and will average fully two-thirds less than the rates now exacted by the authorities in Cuban ports in possession of the United States. The report also contains an analysis and definition of Cuba, in which the effect of the new tariff on the revenue and other sources of revenue is explained and discussed. To the question, "With such a large reduction of duties, how is it possible to secure revenue for the purpose of administering the government of the island," the report says:

"There are several answers to this question. The general answer is that by reason of fraudulent classifications and smuggling most of the revenue collected never reaches the treasury of that island and is sent to the United States. Mr. Porter says: 'The cupidity and rapacity of the Spanish official in Cuba is beyond comprehension, and if we may judge by the results at Santiago, the United States officers will be able to collect quite as much revenue on the island, the duties of which are more than a half or nearly two-thirds less than under the iniquitous law now in force.'

Mr. Porter submits a table, showing the average customs revenue receipts in the island of Cuba from 1886 to 1897, inclusive, to have been \$12,845,894. He also gives an analysis of the Cuban budget, showing how much revenue is required and how much may reasonably be expected from the tariff to be enforced. The next most important subject reached in the report is that in relation to currency. It is in part: "Although Cuba is afflicted with many kinds of depreciated currency, the only sound basis is strictly gold, and in any commercial exchange the value is understood to be in gold unless specified to the contrary." The testimony of the witnesses and statements made on this subject have been unanimously in favor of the gold basis. The Spanish silver money current in the island is only valued at the daily value, which is being principally less than the continually fluctuating value of the Spanish money in European markets.

Mr. Porter then takes up the question of taxation of the island, especially the abolition of certain taxes, especially that known as the consumption tax, on the killing of cattle, which is an extortion that greatly increases the price of food to the people.

Another tax which will fall of its weight when the United States forces take control of the island, is the "cedula" or head tax, which varies in amount from a few cents to \$100, according to the rank and importance of the individual.

Mr. Porter then takes up the question of education. There are free public schools in Cuba, but the teachers have

Capt. Meyler Assigned to Los Angeles to Have Charge of Such Construction as the Department May Authorize.

Davis, Corps of Engineers, and will relieve that officer of such river, harbor and fortification work as may be designed by the Chief of Engineers, taking station at Los Angeles.

the right to take pay scholars, and naturally those who do not pay get little or no education. There are a few people who are illiterate as yet. Some statistics show only one in forty of the laboring classes able to read and write. There is no stable government in Cuba, he says, until this has been revised. In regard to industrial enterprise, Mr. Porter concludes that it can be developed until sanitary conditions have been improved in all the industrial centers.

Dealing with the railway system of Cuba, Mr. Porter recommends the immediate construction of a trunk railway from end to end of the island, with branches extending north and south.

In the opinion of the commissioner, from what standpoint it may be viewed no enterprise could do so much to improve the situation in the island. No revolution could have existed in Cuba if such a railway had been built by a former government.

RESUME COMMAND.

Gens. Merritt and Shafter Given Their Power Assignments.

[ASSOCIATED PRESS REPORT.]

NEW YORK, Nov. 15.—A special to the Tribune from Washington says Gen. Merritt will resume command of the Department of the East, with headquarters at Governor's Island, when he returns from Europe, and Gen. Shafter will go to San Francisco to command the Department of the Pacific, which he relinquished when the war began and he was ordered to New Orleans and eventually to Tampa and Cuba.

These assignments are to be made whether hostilities are resumed or not, as both the officers concerned are satisfied to make way and give younger men an opportunity for active service in the field if occasion requires. Gen. Shafter will reach the retiring age of 64 years October 16, 1899, and his wish to end his military career in his adopted country is well known. He will be respected, in fact, as much was promised to him when he took temporary command at Governor's Island. Gen. Merritt, who was promoted to major in rank on his retirement on June 16, 1900, as his immediate superior, Gen. Miles, still has five years to serve.

STOCKMEN TO MEET.

Will Hold Their Second Annual Convention Next January.

[ASSOCIATED PRESS REPORT.]

DENVER, Nov. 15.—According to a call issued today the second annual convention of the National Live Stock Association will convene here on January 24 of next year and will continue to the 27th, inclusive. Business of great importance to those interested in the various branches of the stock industry will be presented for consideration.

The basis of representation will be one delegate at large from each State and Territory and one from each stock board of trade can each send a delegate. A national exhibition of range cattle will be held in conjunction with the convention. It will probably be the most important business meeting of stockmen ever held in this country.

Among the propositions which have been referred to this association, and which the convention will be asked to either endorse or condemn, are: The enactment of a uniform bounty law in each State and Territory; the importation of an exhibit of American stock at the Paris Exposition in 1900; the passage of a law by Congress prohibiting the importation of breeding animals, physically unsound; the matter of territorial charges at the Chicago market; the extension of the twenty-eight hour law; the revocation of the recent order of the President, which has placed certain tracts of land in Western States and Territories as forest reserves, and the extension of the feed-in-transit law to the Colorado River, the Colorado River, and the question of ceding arid lands to the States. Besides these, many subjects of the utmost importance to the stock industry will be discussed, and the live stock will be discussed in particular by the most able thinkers in the United States.

Knights of Labor Convene.

CHICAGO, Nov. 15.—The annual convention of the Knights of Labor began here today. Over one hundred delegates were in attendance when General Master Workman Hicks of New York called the convention to order.

The proceedings will probably last a week or ten days. The meetings are held behind closed doors. It is said that the knights will pass resolutions combating the assertion attributed to President Samuel Gompers, of the American Federation of Labor, that organized labor is against the acquisition of conquered territory.

QUIT QUO QUO?

(CONTINUED FROM FIRST PAGE.)

Spanish commissioners will ultimately advise the Americans that they must not permit any controversy as to the binding character of the mortgage resting upon the revenues of the Philippines to pay the so-called Philippine debt.

Tenacious adherence to this claim would set up on the Spanish side an ultimatum under which no treaty would be signed which did not stipulate that the Philippine revenues should pay the Philippine debt. In such event, the Americans would probably claim that the Philippine debt of \$40,000,000 amounts to \$20,000,000 in gold, of which about \$10,000,000 has been expended in fighting the Philippines, leaving less than \$10,000,000 chargeable in gold to the Philippines. Indeed, the United States would doubtless contend that even this reduced amount was used in fighting the Philippines, and object to the Spanish conclusion that it is a fair charge against the Americans.

Trouble will arise, however, before the states is reached, the Spanish commissioners will undoubtedly inform the Americans that the latter have no right to exact a schedule of Spain's expenditures or any explanation regarding the destination of the moneys secured on these loans. A Spanish gentleman who is posted as to the exact status of affairs, informed the correspondents of the Associated Press this evening that he did not believe that the Spanish commissioners would take their final stand at tomorrow's session, though he thought it possible that they might finally decline to continue the discussion. This is another way of saying that the Spanish commissioners will make an open protest to the world against "spoliation."

GONE IN DISGRACE.

Austrian Baron Refused to Pay His Debts.

[ASSOCIATED PRESS REPORT.]

LEXINGTON, (Ky.), Nov. 15.—Baron Waldecke de Villamil, an Austrian nobleman, and a captain of the Seventh Volunteer Infantry (Immunes), is in disgrace, and has left for parts unknown.

A few days ago he was discharged from his regiment for various offenses, principal among which was refusing to pay his debts. He owed money to many officers and men, and had large accounts with several merchants. Creditors swooped down upon him in his tent last night, and attached his sword and his uniform. He later secured clothing somewhere and slipped out. Villamil claims to be a cousin to the late Empress of Austria, and sent a telegram of condolence to Emperor Francis Joseph at the time of her tragic death.

A RAILWAY FATALITY.

AWFUL COLLISION ON A CANADIAN ROAD.

[ASSOCIATED PRESS REPORT.]

Twelve Persons Are Killed outright, While Thirty or More Are Injured—Passenger Train, Trying to Make Up Time, Ran Into a Switch and Then Dashed into a Freight.

[ASSOCIATED PRESS REPORT.] KINGSTON (Ont.), Nov. 15.—The Grand Trunk Railway express from Montreal for Toronto, collided with a freight train near Murray Hill this morning. Eight persons were killed or fatally injured.

WILLIAM LUNES, cattle drover, Toronto. CHARLES GOODCHILD, cattle drover, Toronto. JOHN CASEY, engineer, off duty, Belleville.

WILLIAM BRADY, engineer of Montreal Express, Belleville. JOHN McDONALD, freeman of Montreal Express, Belleville. MERIE C. KEY, native of Russia. GEORGE HABRICH, native of Russia.

Three other Russians, man, woman and female child, all unidentified. The seriously injured are: FREDERICK KOHN, German immigrant, thigh fractured and skull thought to be crushed.

A. CAREY, Cobourg, shoulder fractured. The injured are: JOHN McNAMARA of Brockville. L. L. LABANCE of Montreal. W. KENNEDY of Prescott. A. WALKER of Belleville. FRED CAIN of Wickford. JAMES NEWMAN of Toronto.

Twenty passengers, most of them being in the Pullman cars, were more or less seriously hurt. Nine or ten of the wounded are in the Belleville hospital under treatment. The accident occurred at a place called the Diamond Crossing, about two miles from Trenton. The express, which was due at Trenton at 3:25 a.m., ran into an open switch and dashed into the freight train.

SALVADOR IN REVOLT.

Populace Objects to a Federation of South American States.

[ASSOCIATED PRESS REPORT.]

NEW YORK, Nov. 15.—A dispatch received in this city from La Libertad, Nicaragua, states that a revolution has broken out in Salvador. It is only a fortnight since Salvador, Honduras and Nicaragua joined together and formed the United States of Central America. Merchants and commercial affairs in Central America, however, were not surprised when informed that a revolution in Salvador was reported to have broken out. While the federation of the three countries was approved and carried out by the President and commissioners appointed from each country to draw up a resolution, the people of Salvador have not been enthusiastic in the new scheme, particularly as it appears that the financial burdens of maintaining the new state will fall most heavily upon them.

A RARE EXPERIENCE.

THE SEA ADVENTURES OF H. GEN. EREAU, A 'FRISCO BOY.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Nov. 15.—[Exclusive Dispatch.] The four-masted ship Kenilworth, one of the largest ships under the American flag, and belonging to Arthur Sewall & Co., anchored in Upper Bay this afternoon, after a thrilling voyage from the Sandwich Islands. During the voyage an accident made Victor H. Genereux, a San Francisco boy, master of the ship.

Genereux is a slim, wiry lad, with dark hair that tumbles upon his forehead. He is a modest sort of fellow. Telling the story of the voyage last night, he said he shipped on the Kenilworth as a "bosun," but was promoted to be second mate. The crew were a troublesome lot. When forty-two days out from the Sandwich Islands, and 280 miles west of Valparaiso, the mate discovered fire in the hold of the ship. This was July 8. The Kenilworth was loaded with sugar. Great volumes of gas were thrown off, and the first mate and the cabin boy were asphyxiated. Next Genereux found the captain dead in his cabin. A passenger by the name of G. E. Thrum was rendered unconscious, but his life was saved. Next day the captain, mate and boy were buried at sea.

"For 2500 miles and for sixteen days," said Genereux, "I was acting captain of the Kenilworth. At Valparaiso the fire was extinguished; the old crew, who may have set the ship on fire, deserted, and Capt. James Murphy was sent from New York to bring the ship home, which he did in a record-breaking passage of 9000 miles in sixty-five days."

WILL FIGHT COLLIS.

NEW YORK, Nov. 15.—[Exclusive Dispatch.] The English stockholders of the Central Pacific Railway, who were persuaded by Collis P. Huntington to buy that stock at high prices, are ready now to fight vigorously against any invasion of their rights in the efforts being made by Huntington to arrange for the payment of the government debt at the expense of the present stockholders. Huntington and his associates are trying to reorganize the road on a basis similar to the recent Union Pacific deal, though it is possible, with a less consideration for the government than for the Union Pacific syndicate.

The committee of English stockholders, whose opposition to the deal has already been told, have now begun proceedings to restrain the board of directors from putting a new mortgage on the property to make up the government loan, and to prevent a first mortgage. This information was received yesterday by Lewis J. Morrison, of No. 44 Broadway, the American attorney for the stockholders' Protective Committee, the chairman of the committee. The stockholders realize that if the government debt is paid by an enormous issue of bonds, it will practically take from them all of their equity in the property, as the new bonds will take precedence over the stockholders' possessions.

The bankers who are working with Huntington in this matter are Speyer & Co., and Kuhn, Loeb & Co., of this city, and Speyer Bros. of London. Through the local and London houses of the Speyers the present first mortgage bonds of the Central Pacific were sold to the investors. By a legislative juggle these bonds were sold as "first mortgage," while government holdings were forced to take second place.

A Bondholders' Protective Committee was organized, constituting themselves as the principals. Deposit bonds were asked for, so that they could all be sworn as a unit for their protection and against the stockholders. Since this step was taken negotiations have steadily progressed looking to reorganizing the property. As Huntington owns the bonds, and but little of the stock, his sympathy is of course with the bondholders.

WHAT SPAIN WILL SAY.

The sole question for the moment both at Paris and at Washington is the Spanish reply to the American arguments in support of the demand for the concession of the Philippines. This answer is to be made today, at least so it is expected. It will be, as the report has been circulated, a refusal based, on elaborate reasons. The tenor of the reply was outlined last night by the Spanish authorities in Paris, but the essential points have already been indicated in these dispatches for a fortnight past. They are chiefly an elaborate threadbare plea of, "Why, if you consider your demands for the surrender of Spanish sovereignty within the scope of your protocol, did you not say so after we notified you that we did not understand it?" and the obvious American answer is, "You did not so notify us, and we did say so in words as sweeping as the English language contains."

SHIP'S BOILER BROKE

WRECK OF THE STEAMER CITY OF COLUMBIA.

Put into Hilo, Hawaii, Thoroughly Disabled and the Water Pouring into Her.

DISCIPLINE WAS PRESERVED.

THE PASSENGERS DID NOT KNOW OF THEIR PERIL.

Prof. Keeler Talks of Shooting Stars. Santa Fe Terminal-California Election Returns-The Suture Case.

[ASSOCIATED PRESS NIGHT REPORT.]

SEATTLE, Nov. 15.—The steamer Centennial arrived here tonight from Hilo, Hawaii, bringing an account of the wreck of the steamer City of Columbia, which for two days and nights tossed in the ocean, disabled, and the water pouring into her. Through unexplained seamanship she finally reached dock in the harbor of Hilo, where she completely broke down. A passenger in the Centennial gives the following account:

"The City of Columbia left Honolulu October 29 for Seattle. The weather was very heavy. That night, just after clearing Diamond Head, one of her feed pumps became disabled and she laid to for repairs. A heavy sea was running and a strong northwest trade wind was blowing. While the vessel was tossing about, a fireman was thrown down and two of his ribs were fractured. The vessel began to leak and the pumps were put to work. The following morning the weather continued to be bad. The first officer reported that a sea had opened amidships. Capt. W. S. Milnor went down into the engine room. He found the steam pipes straining badly. Steam was escaping.

"Water was streaming over the cement in places in the sides of the room opposite the engines. The boiler had broken loose from its cement foundation. In the stern of the vessel several streams of water from six to eight inches wide, were pouring in. Another stream, twelve inches wide, made its way into the fire room. A consultation of the officers was called and the situation of the vessel was discussed. The vessel then lay in Lat. 26 deg. 14 min. N., Long. 153 deg. 4 min. W.

"It was about four hundred miles from both Honolulu and Hilo. It was decided to steam to Hilo for the reason the vessel went down the wind would carry the lifeboats into Hilo. When the steamer was turned around for Hilo, the pieces connecting the steam gears broke. The hand gear was coupled on. The gale continued, and the deck seams opened. Water was pouring in at the rate of one quadded inch per hour. All hand pumps were manned.

"The steamer was rolling 30 deg., and by this time had acquired a heavy list to starboard. The water was creeping and groaning. The lifeboats were all manned and provisioned ready for embarkation. Capt. Milnor preserved such perfect discipline, especially in the engine room, that but few of the passengers realized their perilous situation. In this helpless condition the vessel slowly made her way to Hilo reaching that place at 4:30 a.m., November 2."

THAT SANTA FE RUM.

Again Asserted That It Has Secured Terminal Facilities.

[ASSOCIATED PRESS DAY REPORT.]

SAN FRANCISCO, Nov. 15.—It is stated on good authority that the Santa Fe Railroad has secured excellent terminal facilities in this city. The property chosen by the company is situated adjacent to the Spear-street wharf. Part of the land is at present occupied by the Hathaway warehouses. The Santa Fe will occupy the entire block bounded by Spear, Main, Market and Bryant streets, in addition to a number of water lots adjoining.

Negotiations looking to the purchase of the property have been in progress since President E. P. Ripley of the Santa Fe left here a few weeks ago, and the fact is now made public that a bond had been secured on the property within the past few days, and the first installment of the purchase price paid over to the owners.

While the negotiations have not been finally consummated, negotiations have reached the point where the deal is almost an accomplished fact.

PETERS PULLED OFF.

Was Taken in Tow Yesterday by A. Freese.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, Nov. 15.—The steamer J. D. Peters was hauled off the mud flats at Sausalito today and taken in tow by the river steamer A. C. Freese. The wrecked vessel will probably reach Stockton tomorrow afternoon.

The investigation into the cause of the disaster was continued today. J. H. Deane, assistant engineer of the Peters, testified that there was no one at the throttle at the critical moment when her bells rang to stop and back. He was in charge, and the engines were alone at the time. He was standing in the door of the engine-room and immediately went to them on the run. After the collision he did not leave the engine-room until the water came up to his knees. A number of other witnesses were examined, and the examination was continued until tomorrow.

CALIFORNIA ELECTIONS.

Unofficial Vote as Counted Gives Curry a Lead.

[ASSOCIATED PRESS DAY REPORT.]

SAN FRANCISCO, Nov. 15.—The Western Union Telegraph Company has issued a statement correcting the figures given out by the company Friday last on the result of the election in this State for the office of Secretary of State. The returns from 1863 precincts out of a total in the State of 2407 give Curry (Rep.) 104,386; Thompson (Dem.) 100,028. Of the number of precincts heard from, fully 25 per cent. have not returned figures on the Secretary of State vote, but from the returned figures the Democratic State Central Committee has given up hope of Thompson's election and admits the success of Curry.

The result of the fight for the Secretaryship should be watched by the residents of this State with as keen interest as the contest for the Governorship.

SANTA CLARA CONTESTS.

[ASSOCIATED PRESS DAY REPORT.]

SAN JOSE, Nov. 15.—The canvass of the votes of this county continues today, but with no material change from the figures previously announced. It

will probably take two more days to finish the count. There will be three contests, Sheriff, City Justice and Supervisor in the First District. These have been announced, and others are spoken of.

SAN JOAQUIN RETURNS.

[ASSOCIATED PRESS NIGHT REPORT.]

STOCKTON, Nov. 15.—The official vote of the State ticket was correct as sent last night. The corrected vote on the Constitutional amendments is as follows for San Joaquin county: No. 1, for, 728; against, 170; No. 2, for, 1220; against, 3108; No. 3, for, 954; against, 3248; No. 4, for, 711; against, 337; No. 5, for, 1244; against, 2941; No. 6, for, 902; against, 3007; No. 7, for, 928; against, 3194. For the convention to revise the Constitution, 612; against, 2476.

ALL CRY—LITTLE WOOL.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, Nov. 15.—The official count of the ballots cast in the election is progressing slowly. No important changes from the unofficial figures already published have been recorded.

ADVANCE IN LUMBER.

Due to a Scarcity in Logs on Puget Sound.

[ASSOCIATED PRESS DAY REPORT.]

SAN FRANCISCO, Nov. 15.—Owing to the efforts of the Lumber Trust, recently formed, the price of lumber has been advanced \$1 per thousand.

Coming by Boat.

SAN FRANCISCO, Nov. 15.—The steamer Corona sailed today with the following passengers:

For Redondo—W. B. Wilshire, Mrs. A. B. Case, Mrs. E. W. Pinkham and daughter, W. H. Canham, and daughter, T. O. Brien, Mrs. E. Stewart, Miss C. Malone, George Fleeter, Mrs. M. H. Tannatt, M. L. Binson and wife, Mrs. W. J. Shure, Mrs. Chisholm, Miss Murray, Miss Davidson.

For Port Los Angeles—Mrs. Marriott, Miss N. Smith, Mrs. E. S. Dodge, J. Dorrity, C. E. Marion, M. R. Hall, J. Greenhalgh and wife.

For Santa Barbara—Mrs. N. W. Williams, Miss R. Ouster, C. D. Blood, T. Harlan, E. F. Merry, Capt. Gardner, L. M. Kider, S. P. Warden, G. J. West, B. Spencer.

He Had a Scheme.

SAN FRANCISCO, Nov. 15.—The trial of the case of Elsie Williams, Grace Looze and Myron Ashdarian on a charge of extorting money from Millicent W. E. Neville commenced in Judge Cook's court today. William Remington of Fresno testified that Ashdarian told him that he had a scheme with the two women to buy a house in which to entertain owners of vineyards, get them drunk, and have contracts signed to sell crops at big prices, and they would be enriched in a similar manner. Fred Erickson of Jamestown, E. D. Lehe of Fresno, William P. Lyon of Fresno all told similar stories.

New Pure Food Law.

SAN FRANCISCO, Nov. 15.—A rough draft of the proposed pure-food law to be presented to the Legislature today was considered today at a conference of the directors of the Manufacturers' and Producers' Association, and the Board of Health. It provides for the State bureau of three commissioners to be appointed by the governor, one each for the northern, central and southern parts of the State. They shall look after all frauds in foods, drugs and unlawful labels, and are to have jurisdiction over all local health officers. The conference decided to ask the Legislature to pass such a bill.

Argument for a Trial.

SACRAMENTO, Nov. 15.—This afternoon William H. Schooner appeared before the Supreme Court and argued for a new trial in the case of George Hoff, under sentence of death for the murder in San Francisco of Mrs. Clute. Schooner contended for a new trial on the ground of errors in the trial of the case in the Supreme Court. The Attorney-General appeared for the State.

Inquest on a Chinaman.

SAN FRANCISCO, Nov. 15.—A coroner's jury today investigated the murder of Chung Yet Den, who was shot by highlanders in the Washington street theater last Sunday night. But little evidence was presented to throw any light on the subject, and the jury returned a verdict that the man came to his death at the hands of parties unknown.

Becker-Creagan Case.

SAN FRANCISCO, Nov. 15.—There is a prospect of the Becker-Creagan forgery case not being submitted to the jury before tomorrow morning. Attorney Ach, special counsel for the prosecution, had not concluded his final argument to the jury at the noon recess today, and it is contrary to the customs of Judge Wallace to charge a jury in an important case at an advanced hour in the afternoon.

Fox Entitled to Money.

SAN FRANCISCO, Nov. 15.—The shareholders of the Hale & Norcross Company have decided by a "New York Times" vote to pay three-fourths of the stock now out that Martin W. Fox is entitled to a share of the money paid under the judgment of the Supreme Court. They also voted to pay a speedy distribution of the funds on the basis of \$1.50 a share.

Teetotalers Meet.

OAKLAND, Nov. 15.—The annual district convention of the Anti-Saloon League of Northern California convened this morning at the First Methodist Church. It was called to order by the Rev. Dr. J. N. Reard of San Francisco, and organization was effected by the appointment of an executive committee and a committee of legislation.

Berg May Receive.

SAN FRANCISCO, Nov. 15.—Nick Berg, who was shot by Ike Elk on the yacht Chispa at Sausalito, may possibly recover. He declines any knowledge of the killing of Capt. Brooks on the same vessel two months ago. Elk, who is confined in the jail at San Rafael, refuses to talk about the affair.

Cargo for the Orient.

SAN FRANCISCO, Nov. 15.—The steamer Aztec sailed today for the Orient with a cargo valued at nearly \$200,000. She will carry to Manila 4500 cases of liquor and to Japan 1,250,000 pounds of tobacco.

Adolph Suture's Alleged Widow.

SAN FRANCISCO, Nov. 15.—Judge Trout today issued letters of guardianship to Mrs. Kluge-Suture, the alleged contract wife of the late Adolph Suture, over the persons and estates of the minor children, called Adolph and Adolphine Suture, respectively. The petition of Mrs. Kluge was granted with

out opposition. This step was taken by Suture's alleged widow in order that the children may have a legal standing in court through her. The content of the will of the dead millionaire will now be proceeded with at any early date.

Found in the Mud.

SUISUN, Nov. 15.—The dead body of Charles Lambrecht, son of Ludwig Lambrecht, near Suisun, who left here last Saturday afternoon on a hunting trip in Montezuma Slough, was found this evening in the mud, about fifty yards from his home. His death was evidently accidental.

Miners Elect Officers.

SAN FRANCISCO, Nov. 15.—The San Francisco Miners' Association met today and elected the following officers: President, Julian Sonntag; vice-president, J. F. Halloran; secretary and treasurer, C. G. Yale. Delegates to the coming State convention were also chosen.

Found a Boy's Skeleton.

SAN DIEGO, Nov. 15.—News reached this city today of the finding of the skeleton of a boy on the trail from Cameron's Lake to Ogilby Station on the Southern Pacific Railway, twenty miles from Yuma. Coyotes and buzzards had stripped all the bones.

MRS. STEVENS ELECTED.

But a Delegate Wanted to Know About Her Religion.

[ASSOCIATED PRESS DAY REPORT.]

ST. PAUL (Minn.), Nov. 15.—The storm of yesterday in the W.C.T.U. convention made a small stir in the convention today. Mrs. Dunham's resolution to pledge the national union to the payment of \$300,000 issue of Temple trust bonds, was owing to the small attendance, postponed until Friday. Mrs. LeVill of Pennsylvania introduced a resolution favoring the great destruction of songbirds for millinery, petitioning Congress to pass a law prohibiting the use for millinery. Some discussion, humorous and otherwise, followed, and it was carried by 165 to 7.

It was announced that 371 officers and delegates were entitled to vote. Mrs. Bessie Laythe Scovall of Minnesota presided during the election. Before the balloting commenced, an Illinois delegate created something of a sensation by asking that "someone tell us the personal religious convictions and sectarian connections of Mrs. Stevens."

There was no answer save a buzz of dissent at such a question at such a time. The ballots were taken up by a corps of distributing tellers, who turned them over to the counting tellers in the choir room. The ballots for president, corresponding secretary and recording secretary were taken before the results of the ballot was announced, as follows: Votes cast, 456; blank ballots, 2; Miss Anna Shaw, 1; Mrs. M. J. Pryor, 1; Miss Helen Hood, 1; Mrs. Caroline Buell, 1; Mrs. M. N. Stevenson, 1; Mrs. B. Laythe Scovall, 1; Miss Belle Mead, 1; Mrs. Cook's, 1; Mrs. Anna Gordon, 1; Mrs. White Kinney, 2; Mrs. Clara C. Hoffman, 4; Miss Marie C. Beecham, 1; Mrs. A. S. Benjamin, 1; Mrs. Helen M. Huxford, 3; Mrs. S. Rounds, 3; Mrs. Marion Dunham, 5; Mrs. Fessenden, 7; Mrs. Lillian A. N. Stevens, 317.

Mrs. Stevens made a very touching speech of acceptance, urging all to join in carrying on the work to which Miss Willard, the beloved leader, had given her life. Mrs. Stevens was elected secretary. Mrs. Clara C. Hoffman of Missouri was selected recording secretary on the first ballot, receiving 292 votes. Mrs. Mary Frances E. Beauchamp of Kentucky was made assistant recording secretary. The ballot for treasurer resulted: Mrs. Helen M. Barker, 285; Mrs. M. H. Dunham, 41; scattering, 20.

The Temple matter came up again in the afternoon, and a resolution on the part of the Temple was defeated by a vote of 76 to 277.

MRS. DUNHAM'S RESOLUTION. [ASSOCIATED PRESS NIGHT REPORT.]

ST. PAUL, Nov. 15.—After luncheon the Temple resolution introduced by Mrs. Dunham, was called up. It was as follows:

Resolved, that in view of the hearty endorsement given by the national convention in Boston, in 1891, to the Temple trust bonds, that that endorsement decided many to purchase the bonds, and that the moral obligation thus incurred by the national union toward the bondholders has been acknowledged again, and we hereby pledge our cooperation to the board of temple trustees in the retirement of the temple trust bonds. The resolution was defeated by a standing vote of 76 to 267. Mrs. Ellis of New Jersey moved that the trust in the bonds be dissolved. Mrs. Correll of Maine be applied, if the donors agreed, to the relief of the temple bondholders, so far as it would apply, and be paid to them proportionately. This resolution was referred to the Executive Committee. The evening session was devoted to addresses.

AARON BURR'S FRIEND.

A Maid Whose Father Was Burr's Second, Died Yesterday.

[ASSOCIATED PRESS DAY REPORT.]

PATERSON (N. J.), Nov. 15.—Miss Caroline Swartout, 92 years old, is dead at her home here. Miss Swartout was the last lineal descendant of a family well known in New York and New Jersey. She was the daughter of John Swartout, who was the personal friend of Aaron Burr, and she gave way to a duel with Alexander Hamilton. After the duel Burr took refuge in the Swartout home. The Swartouts were also connected with Aaron Burr's scheme to form a "New York Bank," and were implicated in Burr's trial for treason, which brought forth Wirt's famous "Defense of Blennerhassett."

Postoffices and Pensions.

WASHINGTON, Nov. 15.—[Exclusive Dispatch.] Special mail service between Del Paso and Sacramento and Roseland, Tuolumne county, and Jamestown has been discontinued. Star service has been discontinued between Mesa and Goldfield and Bellvue and Kilburn, Ariz. Among fourth-class postmasters appointed today were Walter N. Morrison, Jamacha, San Diego county; vice R. H. Graham, resigned; J. R. Crodan, Fort Harford, San Luis Obispo county; vice J. R. Keefe, resigned; Ward J. Crandall, Savannah, Los Angeles county; vice E. R. Meloy, resigned.

Pensions were granted to Californians today as follows:

Original—Inhold von Hoevel, Soldiers' Home, Los Angeles, \$5; Stephen F. Whipple, Vallejo, \$6; Giles T. Noble, San Francisco, \$6; Luther Eichelberger, Soldiers' Home, Los Angeles, \$8; Robert Humphrey, Oakland, \$5; Michel McFarland, Soldiers' Home, Los Angeles, \$10; George Marshall, Mendocino City, \$12; Jacob C. Newton, Pasadena, \$5; John Gilman, San Francisco, \$12.

Additional—Jermiah Knight, Santa Cruz, \$5 to \$8.

Renewal and increase—William Reinbarger, Soldiers' Home, Los Angeles, \$5 to \$8.

Increase—Tobias W. Sands, Hyde Park, \$5 to \$12.

A telegram from Trieste, Austria, says Prince George of Greece, the High Commissioner of the powers in Crete, started yesterday for that island.

JOEY'S JOLLYING.

Gulf for Americans and the Gulf for French.

[ASSOCIATED PRESS NIGHT REPORT.]

MANCHESTER, Nov. 15.—[By Atlantic Cable.] At the National Liberal Unionists' conference here today, Joseph Chamberlain, Secretary of State for the Colonies, made his first public speech since his return from the United States.

Mr. Chamberlain, who was much more explicit on the subject of Anglo-French relations than any of his colleagues in the Cabinet have been, said it was the hope of every friend of peace that the French withdrawal from Fashoda indicated their acceptance of the principle of British control of the whole valley of the Nile, regarding which there cannot be any discussion whatever. Going on to recite a "series of unfriendly acts perpetrated by France in other quarters of the globe during the last ten or fifteen years," he said:

"If better relations are to be established, it will be necessary for French politicians to abandon tactics whose object has been to embroil British policies in quarters where the French have no interests to protect. I refer especially to Newfoundlands, where, despite the fact that the French fishery interests have declined to a comparatively insignificant point, the demands of the French have continually increased and their interference with the development of this colony has increased."

At the present moment, Newfoundland is seriously suffering from an intervention which is of no advantage to France, although a serious detriment to the British colony. If the British could only succeed in disabuse foreign statesmen of the erroneous conception that the British will yield anything to pressure, it will be a blessing in disguise.

After referring to the "thorough and complete sympathy so noticeable between the mother country and the colonies," Chamberlain continued as follows:

"What is of equal consequence, our American kin [loud cheers] have been run to understand us better. If we have had differences in the past, I believe they have arisen entirely from the want of proper mutual understanding. But now the Americans know that in the late troubles our hearts went out to them [cheers] and they heartily reciprocate our feelings. 'I shall not attempt to predict what may follow this better feeling, but I may at least hope that in the future the understanding of which I have spoken may be perfected, and that in the face of that understanding we two may be able to guarantee peace and civilization to the world.' [Prolonged cheers.]

SHE'S FOR LYNCHING.

Mrs. Felton Replies to the Missing Editor Manley.

[ASSOCIATED PRESS NIGHT REPORT.]

ATLANTA (Ga.), Nov. 15.—Mrs. W. H. Felton, whose speech brought forth Editor Manley's reply in his Wilmington paper, resulting eventually in the negro editor's enforced departure from the North Carolina city, is at her home near Cartersville, Ga., awaiting a statement that Manley's Editorial was written in reply to her address before the Georgia Agricultural Society at Tybee, nearly two years ago. Mrs. Felton today repeated portions of the speech, and made some sensational statements in confirmation of her views. In addressing the farmers at Tybee, Mrs. Felton said: "The crying need of women on farms is security in their lives and homes. It is a disgrace in a free country, when race and violence are public reproach, that the best part of God's creation are trembling and afraid to be left alone in their homes."

"With due respect to your politics, I say that when you take the negro into your embraces on election day to congregate in the Temple and liquor to ride his brain and make him believe he is your man and brother; when you honeycomb him at the polls and make him familiar with dirty tricks in politics, so long will lynching prevail, because the cause will grow and increase with every election, and there is not enough religion in the world to organize a crusade against this sin nor justice in the courthouse to promptly punish the crime, nor manhood enough in the nation to put a sheltering arm around innocence and virtue. If it requires lynching to protect woman's dearest possession from the rapine of drunken bullies, then I say, lynch a thousand a week if it is necessary."

Since that address was made, the crime and the bones has decreased 50 per cent. in Georgia," said Mrs. Felton, coming to the present time. "The race will be destroyed by the whites in the defenceless, lawless and orderless wall in regard to the crime of rape and the lynchings that follow. When the negro Manley attributed the cry of rape and the lynchings to the negro men and the white women of the South, the slanderer has been made to fear a lyncher's rope rather than occupy a place in newspapers."

DISTINGUISHED DELEGATES.

Meeting of the Anglo-American Association of Col. Chamberlain.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, Nov. 15.—Sir Wilfred Laurier, Premier of Canada, and Sir James Winter, Premier of Newfoundland, arrived today to take their seats in the Anglo-American joint commission, which held a brief session at 11 o'clock, and then gave way to meetings of the British and American members separately. These separate conferences were for the purpose of going over the grounds on which reciprocity was to be introduced.

Attention is now centered almost exclusively on this topic. The expectation is that this work will proceed so that the final report will be ready by the end of the present week just what articles the other side desires to incorporate in a reciprocity arrangement and what reduction of rates is possible on these articles.

The general expressions coming from members of the commission continue to be hopeful that some kind of reciprocity agreement will be reached, although it is appreciated that the present revenue needs of this government incident to the war make it difficult to find rates which are open to concessions.

DREYFUS WILL ANSWER.

Revision Proceedings Commenced. He Must Reply to Inquiries.

[ASSOCIATED PRESS DAY REPORT.]

PARIS, Nov. 15.—The Court of Cassation has informed the Minister of the Colonies, M. Guillaumin, that it has decided that Dreyfus be informed by telegram that the revision proceedings have commenced and that he prepare his defense. The Minister of the Colonies has received a cable dispatch saying that Dreyfus is in good health. The decision of the Court of Cassation, to inform the prisoner that the revision proceedings have commenced, and notifying him to prepare his defense, is very significant, as it has hitherto been generally admitted that the prisoner should be kept in the Dreyfus proceedings. Questions will now be drafted and posted to Dreyfus, who will formulate his replies.

Deputies today M. Antide Boyer, Radical Socialist, in military prison of the law of 1871 to military prisoners by which the latter would have the privilege of legal assistance during preliminary examinations, aroused an uproar by asking that, if the motion was adopted, it should be applicable to Col. Picquart, who he said, is being prosecuted on charges known to be false.

This called forth numerous noisy protests from the Centrists and Rightists, and the Minister of War, M. de Freycinet, contended that the Governor of Paris, Gen. Zurlinden, had acted in accordance with the law in regard to Col. Picquart. At the same time, M. de Freycinet accepted the motion, and the debate on it proceeded.

The Times

THE WEATHER YESTERDAY.

U. S. WEATHER BUREAU, Los Angeles, Nov. 15.—(Reported by George E. Franklin, Local Forecast Official.) At 5 o'clock a.m. the barometer registered 30.09; at 3 p.m., 29.92. Thermometer for the corresponding hours showed 56 deg. and 64 deg. Relative humidity, 5 a.m., 11 per cent.; 3 p.m., 61 per cent. Wind, 5 a.m., north, velocity 6 miles; 3 p.m., west, velocity, 7 miles. Barometer, temperature, 7 deg.; minimum temperature, 45 deg. Barometer reduced to sea level.

DRY BULB TEMPERATURE.

Los Angeles 56 San Francisco 50
San Diego 63 Portland 38

Weather Conditions.—The pressure is falling throughout the country west of the Missouri River, though it still continues high in the mountain and plateau regions, accompanied by low but rising temperature. The temperature is rising generally this morning, but freezing weather continues from the mountain sections eastward. Cloudy weather prevails on the North Pacific slope, and light rain has fallen on the northwest coast. Fair weather prevails elsewhere.

Forecasts.—Local forecast for Los Angeles and vicinity: Fair tonight; probably partly cloudy Wednesday.

SAN FRANCISCO, Nov. 15.—For Southern California: Generally fair Wednesday; variable winds.

Weekly Crop Bulletin.—Clear, very dry weather continued during the past week, with cool mornings and frost in exposed places. A heavy "north" prevailed from the 11th to the 15th, which blew off some orange and the leaves from deciduous trees, beside drying up irrigated soil and the little green pasture that remained. Some early-sown grain that sprouted after the light rain in October is now drying from lack of moisture. Orchards in some sections are grubbing out apricot trees that have died from the effect of the long-continued drought. Farm work continues quiet, awaiting rain, which is anxiously looked for by those interested, commercially as well as agriculturally. Some dry plowing is being done, but work will not begin in earnest until the soil receives a heavy, soaking rain. Oranges are coloring, but they will be several weeks late in ripening. The raisin crop is about all picked, the greater portion of it shipped to market.

ALL ALONG THE LINE.

Perhaps the wisest Populists in the State are those who dwell at Ontario. They held a jubilee and jollification meeting on Monday evening before election. Had they waited another day their fun would have been spoiled.

The meeting of the Pomological Society of Southern California, to be held at Covina tomorrow and Friday, promises to be one of unusual interest. The addresses announced are to be on topics of practical value, and several of them are especially timely.

R. J. Woodward of Ventura is the early bird from this section that hopes to catch the worm in the Philippines. Mr. Woodward has engaged passage to Manila on the Belgic, which will sail from San Francisco next Saturday. He goes to investigate the situation there as to business openings for American—and probably more especially Woodward—interests.

It is reported from San Diego that the Southern California Mountain Water Company and the San Diego Water Company are about to consolidate all their interests, and that the new organization will be managed by E. S. Babcock. It is apparently the case of the lion and the lamb lying down together, the San Diego Water Company being the lamb.

The teachers of Pasadena are doing their full duty in the effort to get the National Educational Association to hold its next meeting in this city. Superintendent Graham reports that all the teachers, and also a number of other citizens, have agreed to become members of the association. If the meeting held here this means a considerable contribution in the way of membership fees.

The action of the Board of Health in causing the arrest of a physician who has violated the ordinance relating to contagious diseases by neglecting to report a case of typhoid fever is a step in the right direction. Perhaps if an example is made of one of the negligent physicians for there are others—the others will take warning. If not, more examples should be made. Physicians, of all persons, ought to be the last to be party to practices which imperil the health of the people.

A carload of the new crop of oranges was started from Orange on its way to the eastern markets on Monday of this week. It is hardly possible that this fruit is fit to ship, and the probability is that it is. It is to be regretted that there is no means by which a few greedy shippers can be prevented from thus damaging the interests of the entire industry.

The sewer on Broadway is a pestilential nuisance. From the manholes, cesspools, or whatever they may be called, at First and Second streets, some vapors and noxious gases are belched forth at night, poisoning the air and compelling residents in the neighborhood to close their windows to exclude the intolerable stench. The health department, the street department may not know these facts, but this infernal sewer has been emitting the most damnable stench for two years and nothing has been done to abate the nuisance.

Fell Through the Ceiling.

Officer Tom Rico yesterday arrested two boys named Albert Malby and Frank Steiner for falling through the ceiling of a new house belonging to J. N. Ritchie, now in course of erection. On Sunday the boys, with some companions, were playing in the upper story of the house. The ceiling, not being protected by flooring, the two boys fell through, doing considerable damage, although suffering no injury to themselves. The Malby boy, whose father keeps the refreshment garden at the end of the Central-avenue car line, although only 14 years of age, is a pretty tough youngster. He seldom stays at home, generally sleeping around grading camps and such places. After damaging Mr. Ritchie's house on Sunday, Albert went to Santa Monica where he remained until yesterday. When he returned he went to the camp of the street-graders located on the corner of San Pedro and Fifteenth streets, where the officer found him. Both boys will be taken before Justice Morrison today to answer to a charge of malicious mischief.

BAPTIST CONVENTION.

DELEGATES FROM SOUTHERN CALIFORNIA IN SESSION HERE.

Officers in the Baptist Young People's Union Appointed for the ensuing Year—Annual Address of the President.

The eighth annual convention of the Southern California Baptists opened yesterday morning at the Baptist church on Flower street. The day was occupied by the young people's session. Several addresses were made and much business of the association was transacted.

The church, inside and out, was made attractive with flowers, colors and mottoes. The Baptist Young People's Union, red and blue, were gracefully draped about the galleries.

President W. R. Guy of San Diego, presided. The opening devotional exercises were conducted by A. W. Rider, Mrs. W. F. Jacobs of Los Angeles, delivered an address of welcome. A response in behalf of the visiting delegates was made by Rev. Myron Coday of Santa Ana. Miss Laura Godey then sang a solo "Come Unto Me."

The president appointed the following committees to report later in the day: Nominations, Rev. A. P. Brown, Monterey; Howard Jones, Olay; Miss Jones, Olay; Finance, Miss Grace Woods, Pasadena; Mrs. W. F. Jacobs, Los Angeles; Committee on Credentials, Rev. A. W. Rider, Los Angeles; Mrs. J. D. McMillan, Alhambra; Miss L. Tweedy, Rivera.

Rev. M. R. Wolfe of Alhambra delivered an address on "The Relation of the Young People's Society to the Church." Rev. A. E. Knapp of the State Banner Society spoke on the "Benefits Derived from a Christian Culture Course." He earnestly advocated such a course of study for the young, assuring them that they would find it a foundation for the best education that can be obtained. Adjournment was then taken for luncheon.

The afternoon session opened at 2 o'clock. The president introduced David P. Nard who was present to offer the greetings of the Northern and Central California Baptist Young People's Union. The speaker said experience had taught that the best results came from entering the Christian work when young. Make place for the young to work, he said, and keep them at it.

The report of the committees appointed for the morning were then heard. The committee on credentials reported twenty-six societies represented at the convention by seventy delegates.

The committee on nominations reported officers chosen for the ensuing year as follows: President, P. L. Beck, Los Angeles; vice-presidents, Lou P. Hickox, Santa Ana; Howard Jones, Olay; Miss Emma Webb, Santa Ana; Secretary, Charles A. Hubbard, Los Angeles; treasurer, George Hart, Long Beach; directors, Frank W. Woods, Pasadena; A. E. Knapp, San Diego; Miss Nellie Fowler, Redlands; Superintendent of Junior's work, Miss Clara Fenner, Pomona.

The annual address of the president was then delivered by Hon. W. R. Guy of San Diego. The speaker called attention to what the young people's movement has done for the church during the past few years. He said that the young had brought happiness and faith with them. The nature of a young person is to be enthusiastic and selfless. He is going to do large things for his subjects. Such faith and such enthusiasm have assisted wonderfully the work of the church. Then again the young people have brought force into the church, or rather have vitalized the somewhat dormant force that was already there.

The young people's movement is providing equipment to the young for the most effective service of the master. A distinctive feature of the work is that the needs of the individual are looked after, and herein lies one of the elements of its strength. The society supplies the want that is felt so many churches where the members look after the body but pay little attention to the individual.

Rev. P. W. Woods of Pasadena delivered an address on the evidences of spiritual life, and the convention then adjourned until evening.

The program of the evening session was as follows: Selection by First Baptist Sunday-school orchestra of Los Angeles. Prayer service, Dr. G. J. Lund, Los Angeles.

Selection by the orchestra. "Why We Believe in the Y. P. U." of America, Rev. Joseph Smale, Address, Rev. Philip J. Ward, Pomona, Cal.

Address, "Old Ideals for the Young People," Rev. T. R. Evans, Riverside. Consecration service.

California Medical Society. SACRAMENTO, Nov. 15.—The eighth annual meeting of the California Northern District Medical Society was held here today with a large attendance, delegates being present from all sections of Northern California. There was also present a representative delegation of Sacramento physicians. Mayor Lando welcomed the delegates and President T. W. Huntington presided. During the day a large number of papers were read on the subject pertaining to medical practice. Tonight a banquet is in progress in the Maitson Faure. It is quite a brilliant affair.

TRUCKLOADS OF AMMUNITION. William H. Hoogee of South Main street unloaded a car of ammunition yesterday morning. Instead of taking it, as usual, to his sales and warehouses, he had the five loaded trucks drive about town for an hour, led by a band of music. Interspersed between the wagons were men continued to represent the department of various lines of goods he carries, as miners, gunners, campers, prospectors, fishermen. The display included almost 20,000 rounds of ammunition.

The sewer on Broadway is a pestilential nuisance. From the manholes, cesspools, or whatever they may be called, at First and Second streets, some vapors and noxious gases are belched forth at night, poisoning the air and compelling residents in the neighborhood to close their windows to exclude the intolerable stench. The health department, the street department may not know these facts, but this infernal sewer has been emitting the most damnable stench for two years and nothing has been done to abate the nuisance.

Fell Through the Ceiling.

Officer Tom Rico yesterday arrested two boys named Albert Malby and Frank Steiner for falling through the ceiling of a new house belonging to J. N. Ritchie, now in course of erection. On Sunday the boys, with some companions, were playing in the upper story of the house. The ceiling, not being protected by flooring, the two boys fell through, doing considerable damage, although suffering no injury to themselves. The Malby boy, whose father keeps the refreshment garden at the end of the Central-avenue car line, although only 14 years of age, is a pretty tough youngster. He seldom stays at home, generally sleeping around grading camps and such places. After damaging Mr. Ritchie's house on Sunday, Albert went to Santa Monica where he remained until yesterday. When he returned he went to the camp of the street-graders located on the corner of San Pedro and Fifteenth streets, where the officer found him. Both boys will be taken before Justice Morrison today to answer to a charge of malicious mischief.

"DRINK a little wine (whisky) for thy stomach's sake," says the old proverb. The famous old Jesse Moore whisky is the purest and best.

Events in Society.

[The society columns of the Sunday Times are closed at 4 p.m. on Saturday.]

Among the largest and most delightful affairs that will mark the winter season in society where the card party and bal poudre given yesterday afternoon and evening in Kramer's Hall, on South Grand avenue, by Mrs. Othman Stevens, Mrs. Edward D. St. Louis and Mrs. Sumner T. Hunt, three of Los Angeles' leading society ladies. The afternoon was devoted to progressive hearts, and thirty tables were arranged in the handsome cardroom on the first floor. The decorations carried out an original idea of the decorator, Mrs. Anna Bancroft, who had the affair in charge. The colors were pink, white and green. The large room was handsomely decorated with long ropes of smilax, arranged overhead in a canopy effect, and interspersed with scarfs of pink and white tulle. Around the walls of the room was a fringe of cat-tails and rushes, studded here and there with pink-shaded electric lights. The first prize, a gold-mounted traveling clock, was captured by Miss Delia Clemons; Mrs. Richard Mercer carried off second prize, a silver-top, cut-glass vinaigrette; third prize was won by Miss Asbury Kent, who received a cut-glass, silver-mounted ink well. Mrs. Alexander Campbell received a Roanwood tea caddy as consolation award. At the conclusion of the games elaborate refreshments were served under the direction of Staten. During the afternoon music was furnished by the Klaus Orchestra. The hostesses were assisted in receiving and entertaining their guests by Mrs. Frank Thomas, Mrs. Allen Balch, Misses Florence St. Louis, Florence Jones and Alby Easton. Mrs. St. Louis wore a simple gown of white mull, garnished with Valenciennes lace. Mrs. Stevens wore a handsome black satin skirt, and a waist of alternate rows of blue satin ribbon and Valenciennes lace. Mrs. Hunt's gown consisted of a black skirt of broadened satin, with a waist of pale pink silk and lace. The card party was followed by a grand bal poudre given at the same place in the evening. It was the largest and most brilliant society event in the history of Los Angeles. The handsome large ballroom was exquisitely decorated with papyrus, potted palms and plants and white chrysanthemums. The quaintly powdered hair and the many handsome gowns worn by the ladies added beauty and color to the scene. The cardroom was converted into a banquet-room in the evening. The tables were arranged in the form of a hollow square, and were decorated with white feathery chrysanthemums arranged in pitcher vases, the handles of which were tied with bows of pink satin ribbon. Forty pink candles, arranged in artificial pink chrysanthemums, lighted the pretty scene, and sword palms added beauty to the general effect. The decorations of the entire house were the handsomest and most artistic ever seen in Los Angeles. In the evening the hostesses were guests to correspond with the decorations. Lowinsky's Orchestra furnished music for the dance. Nine hundred invitations were issued, and there were over six hundred guests present to the two functions.

Miss Mary M. Chapin and A. M. Jamison, both of Santa Monica, were married Tuesday morning in the Episcopal Church of St. Augustine-by-the-Sea, which was filled with their friends. The decorations, which were placed by the ladies of St. Margaret's Guild, were tasteful and elaborate. The chancel was carpeted in white, and the altar rail was decorated with festoons of smilax tied with white ribbon and jardinières of papyrus, umbrellas, plants and ferns. The altar, which was spread with a rich embroidered cover, was decorated with white chrysanthemums and ferns. The arches and pillars were heavily festooned with smilax. Dr. R. W. Hill of Los Angeles, acted as best man, and Miss Alice Ball of Pasadena was maid of honor. She wore white tulle over white tulle and carried a bouquet of white chrysanthemums and ferns. The bride was groomed in white English lawn over white silk and plain skirt with train. She wore a tulle veil caught up with orange blossoms and white ribbons. The bride's mother wore a silk gown in which she was married thirty-one years ago. The ushers led the way to the altar. Next came the bridesmaids, who wore white tulle over white tulle. The bride and groom were met by the groom's best man and the bride's maid of honor. The ceremony was conducted by Rev. E. H. Meany, the rector. The wedding march was played by Arthur Gay-ford, the organist. The ushers were Messrs. Lee Chambers and Fred McComas. Mr. and Mrs. Jamison are spending their honeymoon in Europe and about San Francisco. They will be at home in Santa Monica after December 1.

The home of Mr. and Mrs. Fred S. Thomas, No. 32 Lincoln avenue, was the scene of a pretty home wedding yesterday morning at 9:30 o'clock, when the latter's sister, Miss Anna Frances Smith, was married to Jean Girard Drake of Tucson. Father Mitchell, of the Catholic church, officiated. The ceremony was witnessed by only immediate friends and relatives of the contracting parties. The entire house was handsomely decorated, the color scheme being white and green. The hall was decorated with English ivy, twined about the stair railing, papyrus and chrysanthemums. Long ropes of smilax were arranged in the parlor, reaching from the corners of the room to the chandeliers in the center. The table, which was set with a long train, and yoke and flounces of point lace. Her long, flowing veil of misty tulle was also garnished with point lace. She carried a bouquet of white and purple violets. Following the ceremony a wedding breakfast was served by Christopher & Sparks. The table, which was set with maiden-hair ferns extending from the center of the table to the ends, and the dining-room was lighted with tall, silver candelabra shaded with green. Those seated at the breakfast table were: Mr. and Mrs. Jean Girard Drake, Mr. and Mrs. Charles B. Drake of Tucson, Mr. and Mrs. Fred S. Thomas, Mrs. Mary Thomas, Mrs. S. Hatcher, Miss Julia Weston, and Father McAuliffe. The bride received many handsome presents, and Mrs. Drake left on the noon train for San Francisco. Upon their return they will reside in their newly-furnished home, No. 131 West Eleventh street, where they will be at home to their friends after January 1. The bride has resided in Los Angeles many years, where she is well known in social circles.

Edward D. Sheehan, State secretary of the Ancient Order of Hibernians, was the guest of honor at a "smoker" given by that order in their hall, No. 703 South Main street, yesterday evening. There was a large attendance of

Paine's Celery Compound

Roosevelt's Rough Riders Restored to Health by This
Greatest of All Remedies.

Brought Him Back to Life.

NEW YORK, Sept. 30, 1898.
Messrs. Wells, Richardson & Co.
Gentlemen: I might have broken down sooner in the campaign about Santiago if I had had time to realize what was the matter with me before the Spaniards surrendered.

God knows I broke down soon enough, as it was, and it was as great a surprise to me as it was to the other boys who knew me at home. But the Spaniards kept us busy, when we were not busy on our own account getting ready for the big fight. That I was a member of the Roosevelt Regiment I shall always be proud, and the fight at Las Quasimas and at San Juan Hill will be things to talk about for many a year.

But I would not have lived to talk about them if I had not found something to brace my nerves up again after the siege I had of it at Santiago with dysentery and slow fever. I got so I could hardly shoot, and felt like I did not care whether I did or not.

I lost twenty pounds in weight, and a lot more than that in spirit. If you can measure a fellow's spirit that way, half a dozen Mauser bullets could not have made a worse mess of me than the Cuban climate, and the mud in the Santiago trenches did. As soon as I found I was sick and my nerves were all gone I hunted for a tonic. I found it on the way back north, when I got some of the Paine's celery compound I saw other men using.

How it braced me up my picture will show better than anything else. It is the greatest nerve restorer that can be made, for it brings all the force there is in a man to the surface.

members to meet the secretary and his friend, M. P. Sullivan, also of San Francisco, who accompanied him there. Mr. Sheehan represented the order at the national convention, held in Trenton, N. J., last June, and is City and County Tax Collector-elect of San Francisco. An informal programme was rendered, and the evening concluded with a supper.

NOTES AND PERSONALS.
Miss Kate F. Straub of Cummings, Iowa, and John E. Loomis of this city were married yesterday morning at the home of the groom's parents, Mr. and Mrs. W. P. W. Martin of No. 551 South Hope street. The parlor, halls and dining-room were decorated with chrysanthemums and smilax. Whist was played, vocal and instrumental music was rendered, and at the close of the game refreshments were served. Those present were: Mr. and Mrs. Fred Zuecher, E. F. Fuller, C. S. Klous, William M. Budinger, G. Witherspoon, K. L. Wilcox, C. L. Strange, W. F. Anderson, F. Webb.

Col. and Mrs. D. E. Miles arrived from San Francisco yesterday, and are guests of the latter's sisters, Mrs. D. E. Welles and Mrs. Othman Stevens. They will remain two weeks.

Dr. and Mrs. Greer and daughter, Miss Greer, former residents of Los Angeles, who have been residing in Pasadena for the past year, have returned and are at the California Hotel for the winter.

Mr. and Mrs. William M. Garland

Escaped Montauk Hospital.

NEW YORK, Oct. 6, 1898.
Messrs. Wells, Richardson & Co.
Gentlemen: If anybody in the whole regiment of Rough Riders had a chance to observe the general weakened condition of the men when they started back to the United States, as compared with their stalwart condition when they sailed from San Antonio on June 8, I think I had.

Oklahoma is generally regarded as a healthy climate, and last May when I left there I hardly knew what sickness meant. Earlier in life, however, I had lived in the East and after a month in service knew that what I needed, in my general run-down condition, was a nerve tonic. I knew if my nerves were fixed up there would be no trouble about my general health, as soon as I got away from the army.

I also knew the position that Paine's celery compound occupied, although I had not had occasion to use it much myself. I got a few bottles of it and began to take it, and to give it to a few of my acquaintances.

It actually seemed to build up my nervous constitution almost as rapidly as the southern climate had torn it down. The same thing was true of the other men I gave it to.

Unless I had found this tonic to restore my nerves, I feel sure that I would have gone to the hospital at Montauk Point, and I might have shared the fate of many other poor fellows whose impoverished condition did not yield to the doctor's treatment.

It gives me pleasure to recommend Paine's celery compound as the best remedy ever sold in America.

have arrived in Los Angeles, and have taken apartments at the Hotel Van Nuys for the winter.

The members of Stanton Relief Corps gave an entertainment in Music Hill yesterday evening. The programme consisted of a comical play in two acts and vocal and instrumental music.

Mrs. Wilbur Parker has gone East for the winter. Mr. Parker will spend the winter in Mexico looking after his mining interests.

Mr. and Mrs. George Sinsabaugh have returned from their wedding trip through the East.

The regular meeting of the Los Angeles W.C.T.U. will be held today at 2:30 o'clock, in the parlors of the First Congregational Church, corner of Sixth and Hill streets. An address will be given by Mrs. L. M. Hutton, on the "Scientific Temperance Instruction."

Capt. Overton gave a box party at the Orpheum Monday night, followed by a supper at the Van Nuys. There were present, Mrs. Lucia Burnett, Dr. and Mrs. J. N. Jauch, Mr. and Mrs. Charles C. Carpenter.

CLEAN THE VACANT LOTS.

A Protest Against the Proliferous Dumping of Garbage.

The common nuisance of the dumping of offensive garbage on vacant lots where it annoys neighboring residents is to be fought by the Merchants' and Manufacturers' Association. In accordance with a resolution adopted by the board of directors, Secretary F. J. Zeehandelaar yesterday sent to Health Officer L. M. Powers the following communication calling his attention to the state of affairs.

"The attention of this association has been called to the practice in the res-

Nearly Dead from the Fever.

ST. LOUIS, Sept. 29, 1898.
Messrs. Wells, Richardson & Co.
Gentlemen: Nobody can blame me of being disloyal. I say that Paine's celery compound has done more for me than any other person or thing since I left Silver City to join the Rough Riders.

It has pulled together the scraps of a stalwart man, brought me around from all the bad effects of the Cuban climate, and braced me up until I am in better health than I have been in ten years. My friends in the West think that I am nearly dead from the army fever they called callulera in Cuba. When I got back to Silver City they will be as surprised as I sometimes feel myself. I had pretty good nerves before I enlisted, but before they could again be ying out in the trenches at Santiago, dodging bullets. I began to feel feverish from the day we got to Silver City. When the Mausers sang about our ears I noticed that I was getting nervous. I found myself scarcely able to walk after the battle of San Juan.

I got worse and worse until I got back to Montauk Point, where I got a bottle of Paine's celery compound from another fellow in the regiment. I saw several of the Rough Riders taking it with me, it seemed to take the place of both food and medicine, for the systems of many of the men began to tone up before they could again eat as they had done before they left this country.

I don't know much about medicines. We don't need much medicine in New Mexico. But I know Paine's celery compound has made me up until I feel able to take the road for home, where I expect to tell every one who mentions nerves to me about my case.

ence portion of this city of depositing and dumping garbage and other refuse on vacant lots. The debris is allowed to remain and decay, thereby causing sickness to the adjacent residents, and in a general way jeopardizing the health of this city.

"I have been instructed by the board of directors of this association to bring this matter to your notice and to request you to take such steps as are in your power to remedy the evil, either by placing signs on vacant lots warning people not to dump any garbage there, or through a more stringent enforcement of the law by the arrest of the guilty parties."

Vapor Bath Cabinets.

Should be in every home. They clear the
skin, give nature a chance to
do her work. A hot vapor bath before re-
tiring induces peaceful sleep, which is so
essential to perfect health. Complete outfit

BOSTON FISH MARKETS. The latest market advices from Boston report the fish markets as follows:

"There is every reason to apprehend that the price of mackerel will hold, as the catch this week was very small, and the reports from the fleet were not at all reassuring. For the season, to date, the fleet has landed 14,467 barrels; same time a year ago, 9765 barrels; same time in 1896, 60,691 barrels; in 1895, 19,247 barrels; in 1894, 36,583 barrels; in 1893, 48,547 barrels. Reports from Ireland show that only a fair catch of mackerel can be expected. Mackerel importations to date have amounted to 14,332 barrels; same time last year, 15,000 barrels; same time in 1896, 22,552 barrels; in 1895, 18,908 barrels; in 1894, 28,658 barrels; in 1893, 26,600 barrels.

"Prices continue firm, bay mackerel sold at \$25, fisherman's order, out of vessel, and at \$18 for small. No large shore mackerel offering, but are nominally quoted at \$25 for large, out of vessel, and at \$14.50 for tinklers. The jobbers and dealers are very firm at: Large 35, \$15.00; medium 30, \$15.00; small 25, \$15.00; extra 15, \$15.00; extra 10, \$15.00; extra 5, \$15.00; extra 2, \$15.00; extra 1, \$15.00; extra 1/2, \$15.00; An old lady named Esther Cutter, 84 years of age, reported to Officer Richards at First and Spring streets yesterday afternoon that she was lost. Morrison Bros., the grocers, informed the police that the old lady's home is at Savanna, and that they would see that she got to her folks.

A gentleman who visited the body found in Ballona Creek on Sunday morning yesterday expressed the opinion that the remains were those of Lili, the missing telegraph operator, but Coroner Cammell says there is no resemblance between the description of Lili and the unknown dead.

An old woman was picked up from the sidewalk at the Plaza, by Special Officer Mead Monday morning, where she had fallen in a drunken stupor. She was sent to the Police Station, where she was scolded by the police. After she sobered up she was released on bail. She did not appear for trial yesterday afternoon, so her bail was forfeited.

Capt. Albert D. Wood, aged 76, had a leg broken yesterday afternoon by being thrown from a wagon. Wood was driving along 14th street in the northwestern part of the city, when his team became frightened and ran away. He was pitched out and lay by the roadside until the patrol wagon arrived and conveyed him to the Receiving Hospital, where Dr. Hagan set the fractured limb.

THE "HONOLULU LADY."

Mrs. Shaw Pleads Guilty to the Charge of Embezzlement.

Mrs. Helen M. Shaw, the "Honolulu lady" who formerly was a member of the court of King Kalanuike of the Sandwich Islands, pleaded guilty to the charge of petty embezzlement in the Police Court yesterday. She frankly admitted that she borrowed Mrs. Ada A. Warr's watch and pawned it for \$10 instead of returning it to the owner.

"I borrowed the watch for the purpose of pawned," said Mrs. Shaw in explanation, "but was pressed for a sum of money, so I pawned the watch, my intention being to redeem it before I was expected to return it."

The purpose for which Mrs. Shaw borrowed the watch was to time herself in taking evidence.

Pawnbroker J. Cohn identified the watch in evidence as the one Mrs. Shaw pawned with him, and wanted to know where he was to get the \$10 he advanced on it. The court was unable to enlighten him on that subject. The watch is still in custody of the court but will be returned to Mrs. Warr, so Cohn will have to whistle for his money.

Mrs. Shaw's sentence, at request of her attorney, was deferred till Thursday at 2 o'clock.

FOR THE NEW CHARTER.

Active Work by the Woman's Central Educational Committee.

A meeting of the Woman's Central Educational Committee was held yesterday morning at the Nadeau Hotel. The chief object of the meeting was to promote interest in the new city charter and a large number of women, representing the various wards, were present.

Interesting reports were presented showing the work that had been accomplished in ward meetings.

A motion was adopted instructing all members of the committee and the chairman of the ward committees to work for the adoption of the city charter.

Mrs. R. H. F. Variel and Mrs. Eames were appointed to confer with the City Central committees of the several political parties in order to ascertain the dates and places of ward meetings. An effort will then be made at all of these meetings to arouse interest in the new charter.

Some general discussion followed upon needed reforms in the public school system and the demand for industrial training for both boys and girls.

Omaha Exhibits Unpacked.

Secretary Frank Wiggin of the Chamber of Commerce was held at work all day yesterday supervising the unpacking of the exhibits which have just come back from the Los Angeles county display at the Transmississippi and International Exposition at Omaha.

A quantity of the things are being restored to their old places in the chamber's permanent exhibit. Some will be sent to refresh the Los Angeles county exhibit at the State Board of Trade in San Francisco. The exhibits sent by individuals will be returned to them. Among the prized things brought back from Omaha is a huge visitors' register, crammed with names from cover to cover. Two smaller registers were also filed.

DIED OF HIS INJURIES.

Rhodes Lingered Until Yesterday, but Never Regained Consciousness.

Louis N. Rhodes, a native of Ohio, 41 years of age, died at the Receiving Hospital at 8:30 o'clock yesterday morning. Rhodes was a lineman in the employ of the Edison Electric Company, and the manager spoke highly of him as an efficient, faithful workman.

Monday afternoon, at the Receiving Hospital, Rhodes was taken to the top of a pole, and had not yet put on his rubber gloves or adjusted his safety belt. His right leg came into contact with a telephone wire, shocking him sufficiently to cause him to lose his hold on the pole. In the opinion of Dr. Morgan, who was the cause of his death. When Rhodes was taken to the Receiving Hospital, his respiration was normal, but his temperature had increased to 101.5 degrees.

Monday afternoon, his respiration was normal, but his temperature had increased to 101.5 degrees. He never regained consciousness up to the time of his death.

The remains were removed to the undertaker's parlors of Orr & Hines, where an inquest will be held this morning at 10 o'clock. The place will be held from the same place at 2:30 o'clock Thursday afternoon.

Rhodes leaves a wife and three children, all residing in Los Angeles. He had been at work for the Edison Electric Company since last February, and was paying for his modest home, No. 914 East Third street, on the installment plan. Rhodes's parents live at Fort Scott, Kan., his father being 72 years of age. There is left practically penniless by the death of his son. Rhodes was a native of Ohio, and was a member of the local lodge of the B. O. E. F., of which he was a member.

Mrs. Rhodes, the wife of the deceased, is left practically penniless by the death of her husband. She is a native of Ohio, and was a member of the local lodge of the B. O. E. F., of which she was a member.

Ah Kwong and Wong Doe were arrested yesterday by Officer Ritch on warrants charging them with "gambling."

These frisky Celestials appear to have been going up against the anti-gambling ordinance, which Mayor Snyder was afraid to sign, by engaging in the seductive pastime of playing fan tan, or some other form of gambling. Quong and Wong promptly gave bail for their appearance in court.

employed counsel to defend them and are preparing to give the minions of the law a hard fight, all same Wilson and Smith of the Arizona Club.

Chinese Gamblers.

The following licenses were issued yesterday from the office of the County Clerk:

Samuel G. Vandergift, a native of West Virginia, aged 27 years, and Olga E. Beck, a native of Canada, aged 22 years, both residents of Ontario, San Bernardino county.

William F. Johnston, a native of Ohio, aged 24 years, and a resident of Redlands, and Bertha C. Baab, a native of Michigan, aged 24 years, and a resident of Warner, both residents of Los Angeles.

Charles Augustus Gross, a native of Missouri, aged 23 years, and Dossa Surlinella West, a native of Idaho, aged 20 years, both residents of Los Angeles, were arrested yesterday by Officer Ritch on warrants charging them with "gambling."
